

Cut Machine Costs NOW!

Operator Interface Plus Control — *LT3000 Series*

Starting at
\$425
(3.8" model)

Replace this ...

- PLC
- PLC software
- PLC to HMI cable
- Text display
- Push buttons/lamps
- ASCII module for bar-code input
- Encoder input module (high-speed counters)
- Manual data collection

...With an all-in-one machine control and HMI solution

Switches

Pumps/Drives/
Motors

Bar-code
Scanners

Sensors

Item	Pro-face LT3000 All-in-one HMI + Control Solution	Supplier A Separate HMI and PLC Solution
1. PLC	\$	\$ 600
2. PLC programming software	\$	\$ 300
3. Annual PLC software maintenance contract	\$	\$ 500
4. PLC to HMI cable	\$	\$ 100
5. HMI display hardware	\$ 425	\$ 550
6. HMI programming software	\$ <i>Free with First Time Buyer</i>	\$ 300
7. Annual HMI software maintenance contract	\$ - 0 -	\$ 250
8. Larger power supply	\$	\$ 50
9. Larger enclosure	\$	\$ 200
10. Maintenance cost supporting separate HMI and Control logic databases	\$	\$ 250
11. Impact to reliability of having PLC and HMI separated	\$	\$ 500
Totals	\$ 425	\$ 3600
YOU SAVE	\$ 3175	

LT3000 Series Feature Highlights:

HMI Functionality

- Alarms/Recipes/Security
- Buttons/Lamps
- Data logging
- Printing
- Multi-language
- Trending

Control Functionality

- Ladder Logic
- Timers, Counters, PID
- High speed counters (encoder input) (up to 100 Kpps)
- Pulse Output/PWM (stepper control) (up to 65KHz)
- Temperature control

Connectivity

- Ethernet (data collection and reporting) (LT3300 only)
- USB
- Serial (LT330x only)
- Analog/discrete I/O expansion
- CANopen distributed I/O (option)
